

Erike Vamsi

Shopify developer

Profile

Shopify Developer with over 3 years of hands-on experience in building high-performance, customized eCommerce solutions. Skilled in developing and maintaining Shopify stores with a strong user experience, functionality, and scalability. Proficient in Shopify’s Liquid templating language, custom theme development, third-party app integrations to deliver seamless, conversion-optimized shopping experiences. Proven ability to transform complex business requirements into efficient, user-friendly storefronts.

🏢 Employment History

Shopify Developer at Comfort Click Softech Private Limited, Hyderabad

February 2025 — Present

Developed and maintained custom Shopify themes for e-commerce brands like **Animigo** and **WeightWorld**, ensuring responsive design and optimal performance across devices.

- Led the full migration of Animigo’s e-commerce platform from **Laravel** to **Shopify**, building the site architecture from scratch using Shopify 2.0 themes and Liquid.
- **Shopify Theme Development:** Expertise in creating custom Shopify themes from scratch and modifying existing themes to meet client specifications.
- **Pixel Integration:** Proficient in setting up and configuring Facebook, Google, and other tracking pixels to track conversions and optimize marketing campaigns.
- **Shopify App Integration:** Experience with integrating third-party apps and APIs to extend functionality and enhance site performance.
- **Liquid Templating:** Proficient in Shopify’s Liquid templating language for dynamic and interactive site elements.
- **Front-End Technologies:** Strong knowledge of **HTML, CSS, Liquid, JavaScript, React and Tailwind** to implement responsive designs and interactive features.
- **eCommerce Optimization:** Skilled in optimizing site speed user experience to drive conversions and sales.
- Implemented custom Liquid code and Shopify APIs to build scalable, high-performance storefronts with tailored user experiences.

Skills

- JavaScript
- Liquid
- HTML, CSS
- Git
- Tailwind
- Responsive Design

Shopify Developer at Marmeto, Bangalore

January 2023 — February 2025

As a Shopify Developer at Marmeto, I was responsible for creating and customizing Shopify e-commerce websites. My role involved utilizing my skills in CSS, HTML, Shopify, Git, JavaScript, and Tailwind to enhance the visual appeal and functionality of the websites.

- Optimized site performance and page load speeds through efficient theme architecture, lazy loading, and code refactoring.
- Managed version control using Git and collaborated via tools like **Zoho**, **Slack**, and to ensure timely project delivery.

Notable Projects:

- **Trident:** Led the full build of the Trident eCommerce site, focusing on custom theme development and integration of advanced functionalities to enhance user engagement and streamline the shopping experience.
- **Enamor:** development of the Enamor Shopify store, implementing custom solutions to support a diverse product range and improve overall site performance.
- **Boat:** Managed the development and optimization of the Boat eCommerce site, incorporating sophisticated features and integrations to boost sales and customer retention.
- **Superkicks:** Developed and launched the Superkicks online store, with a focus on creating a visually appealing and highly functional shopping environment.
- **Mcaffeine:** Delivered a robust Shopify solution for Mcaffeine, including custom theme design and app integrations to enhance site usability and drive conversion rates.

🎓 Education

Master of computer applications, Cambridge institute of technology, Bangalore

February 2021 — October 2022

Comprehensive Training in Software Development: Acquired in-depth knowledge of various programming languages, software development methodologies, and database management. The MCA curriculum provided a strong foundation in computer science principles, algorithms, and systems analysis.
